The prior art (US 6,009,154) Ricken et al., (US 6,055,504) Chou et al., and Orda, Ariel, "Adaptive virtual path allocation policy for broadband networks" fails to teach a method and apparatus for the calculation of a new bid's cost as a function of a price data component of a bid having a price component lower than the price component of a new bid that does not receive the entire quantity of a resource requested in a bid's quantity component as a result of a second providing step in claims 1 and 18 and the method step of a third determining of at least one previously submitted bid with a price component lower than the price component of the new bid, if the new bid had not been made the bid would have been provided with a greater portion of the resource than was actually provided to the bidder, and designated the bid as an excluded allocation bid and designated the greater portion as an excluded allocation quantity associated with the excluded allocation bid in claim 43.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
